DELAWARE FORM PIT-UND
Delaware Underpayment of Estimated Taxes
INSTRUCTIONS

PURPOSE OF THE FORM

Use Form PIT-UND to compute your penalty for having underpaid your estimated taxes. If you choose to compute your penalty using this form and a penalty due is calculated OR if you use Part 3 – Annualized Installment Method:

- Check the “Form PIT-UND Attached” box on the front of your Delaware personal income tax return
- Attach your completed Form PIT-UND to your return.

Do not submit a Federal Form 2210 instead of a Delaware Form PIT-UND. Do not submit computer worksheets in lieu of the Form PIT-UND.

Use of Form

You may choose to use the Short Method (Part 2) of this form if you made equal estimated payments on or before the dates they were due or made no estimated tax payments. You may choose to use the Annualized Method (Part 3) of this form if your income was earned unevenly throughout the year. Resident filers using Filing Status 4 should combine (net) the amounts in both columns of their tax return before transferring figures to the (create one combined Form PIT-UND for both spouses).

If you elect to use the Annualized Method in Part 3 of this form, check the box that says “Taxpayer is Using the Annualization of Income Method” on page 1.

Who Must Pay the Underpayment Penalty:

In general, you will owe the penalty for 2021 if you did not pay at least the smaller of:

1. 90% of the Tax Balance shown on Line 32 of the 2021 Delaware Resident Tax Return (Line 47 on the Non-Resident Form); or
2. 100% of the Tax Balance shown on Line 16 of your 2020 return (Line 47 on the Non-Resident Return). Note: If you are not a Farmer or fisherman and your Adjusted Gross Income (AGI) on your 2020 return is in excess of \$150,000 (\$75,000 if married Filing Separate Returns, Filing Status 3), you must use 110% of the 2020 Tax Balance.

The penalty is figured separately for each installment due date. Therefore, you may owe the penalty for an earlier due date even if you paid enough tax to make up the underpayment (even if you are due a refund when you file your return).

Exceptions to the Penalty:

You will not have to pay the penalty if any of the following applies:

1. You had no Delaware tax liability in the previous year (Line 16 on the 2020 Resident return or Line 47 on the Non-Resident form); or
2. For the current year, the tax liability minus non-refundable credits minus refundable credits is less than \$800 (on PIT-RES, line 32 minus the sum of line 33 and line 39; on PIT-NON, line 47 minus line 53); or
3. You were a Part-Year resident during 2021; or
4. You derived at least 2/3 of your Gross Income from farming or fishing, and paid the total estimated tax due by January 15, 2022, or filed your return by March 1, 2022 AND paid the total tax due at that time. If this exception applies, check the “Taxpayer is a Farmer or Fisherman” box on p. 1 of the PIT-UND.

Waiver of the Penalty: Once the penalty has been assessed you may request a waiver of the penalty by writing to: Tax Conferee, Delaware Division of Revenue, P O Box 8714 Wilmington, DE 19899-8714

Reasons for requesting a waiver are:

1. The underpayment was due to a casualty, disaster, or other unusual circumstance (explain the circumstance); or
2. In 2020 or 2021 you retired after age 62 or became disabled.

If one of these reasons applies to you, DO NOT check Form PIT-UND indicator box and DO NOT submit the form. You will be given a chance to request a waiver after the penalty has been assessed.

SPECIFIC INSTRUCTIONS

Form PIT-UND is divided into five parts as follows:

1. The Required Annual Payment
2. The Short Method
3. Annualized Income Installment Method
4. Computation of the Over/Underpayment
5. Computation of the Penalty

1. The Required Annual Payment.

Use this part to figure the amount of your required annual payment.

- A. Enter 90% of Line 32 from your 2021 Form PIT-RES or Line 47 of Form PIT-NON.
- B. Enter 100% of the Balance on Line 16 of your 2020 Delaware Form 200-01 or Line 47 of Delaware Form 200-02 (110% if your 2020 Delaware AGI is more than \$150,000 or \$75,000 if filing status is 3).
- C. Enter the smaller of Line A or B. This is your required annual payment, which should have been made in four equal payments.
- D. Enter the total amount of Delaware tax withheld, S Corporation payments made on your behalf, and approved Refundable Business Credits.
- E. Subtract Line D from Line C. Note: if this amount is \$800 or less, stop here. You do not owe the penalty.

2. The Short Method.

Once you have figured the required annual payment, you may use the Short Method ONLY if:

- a. You made no estimated payments; or
- b. You paid estimated tax in four equal amounts on or before the due dates (June 15th, July 15th, September 15th, and January 15th).

You may not use the Short Method if you made any of the payments late. You may not use the Short Method if any capital gain tax payments were made on your behalf.

Line by Line instructions:

- E. Enter the total of your estimated tax payments.
- G. Enter the total amount of Delaware tax withheld, S Corporation payments made on your behalf, and approved Refundable Business Credits.
- H. Add lines F and G.
- I. Total Underpayment for the year (Subtract Line H from Line C). If zero or less stop here. You do not owe the penalty.
- J. Multiply Line I by 0.12.
- K. If the amount on Line I was paid on or after April 30, 2022 enter zero (0). If it was paid before April 30, 2022, count the number of days from the date you paid the amount on Line I to April 30, 2022 multiply the number of days by 0.0005 and then multiply that number by the amount on Line I. Enter the results on Line K.
- L. Subtract Line K from Line J. This is your penalty for underpayment of estimated taxes. Add this amount to the other penalties and interest due on Line 43 of the Resident return and Line 57 of the Non-Resident return.

3. The Annualized Installment Method.

This method should be used by individuals whose income is earned in an uneven fashion throughout the year. Examples would be receiving large capital gains or bonuses late in the year.

Figure the penalty by applying the appropriate rate against each underpayment shown on Line 37 for as long as an underpayment remains. Adjust this amount as payments were made.

39. This lists the dates the payments on Line 37 are due.
40. Compute the number of days between the due date on Line 39 and the date the amount on Line 37 is paid or June 15th, 2021 whichever is earlier. Stop the computation when the total underpayment for the year has been paid or June 15th, 2021 (whichever is earlier). Repeat the computation for each column. (NOTE: If the amount due is not paid with one payment, the penalty for the period should be figured on a separate sheet and the total entered on this Line. For example, if Line 37 column 1 shows an underpayment of \$300, and \$200 was paid on June 1st, and \$200 was paid on September 15th, the penalty would be figured for 48 days on \$300, and 93 days on \$100. The remaining \$100 of the payment made in September is available to be applied to a June 16th underpayment, if necessary.)
41. Multiply Line 40 by 0.0005.
42. Multiply Line 41 by Line 37. This is the penalty for the period. Repeat the computation for each column.
43. Add the columns together to determine the total penalty.

Enter the amount of the penalty you computed by either the Short Method or the Annualized Method on Line 43 of the Resident Return or Line 57 of the Non-Resident return.

Please remember to check the Form PIT-UND Attached box section and submit a copy of this form with your return. Checking the box without submitting a form will unnecessarily delay the processing of your return.
