Complete Idaho Form CG to compute your capital gains deduction.

Line 7 Idaho Resident-Military Pay Earned Outside of Idaho

Column A and B: If you're serving in the United States military on active duty that's continuous and uninterrupted for 120 days, Idaho doesn't tax your active duty military wages for service outside of Idaho. The continuous 120 days don't have to be in the same tax year. This deduction applies to Idaho part-year residents who report military wages earned outside Idaho as Idaho income on Form 43, line 7.

Enter the amount of wages in Columns A and B if included on Form 43, line 7. Don't include military wages earned while stationed in Idaho. Your W-2 doesn't show this amount separately, and you may

have to compute the amount of income earned outside of Idaho. See your unit of assignment or use your orders to make the computation. Include a copy of your worksheet.

National Guard or Reserve pay, including annual training pay, doesn't qualify as active duty pay unless you've been called into full-time duty for 120 days or more. If you're a commissioned officer of the Public Health Service or of the National Oceanic and Atmospheric Administration militarized by the President of the United States and attached to the armed forces, your active duty military wages earned outside Idaho qualify for this deduction. Enter these wages on this line.

Line 8 Idaho Medical Savings Account Contributions and Interest

Columns A and B: You can contribute up to \$10,000 (\$20,000 if married filing a joint return) to an Idaho medical savings account and deduct the contribution. Deductible contributions don't include reimbursements that were redeposited into your Idaho medical savings account. Don't include amounts deducted on federal Form 1040 or 1040-SR.

An Idaho medical savings account generally is established with a bank, savings and loan, or credit union. The account is established to pay eligible medical expenses of the account holder and the account holder's dependents.

The account owner can make withdrawals for a qualified eligible education expense for the beneficiary as provided in 26 U.S.C. section 529. The person who withdraws the funds must report the amounts withdrawn as income. More information is available at idsaves.org or by calling (866) 433-2533.

See page 33 for the definition of developmental disability.

If you maintain the home for the family member for less than a full year, the deduction is allowed at the rate of \$83.33 for each month the home was maintained.

A family member is any person who meets the relationship test to be claimed as a dependent on income tax returns. Refer to the federal Form 1040 instructions for more information.

Maintaining a household means paying more than one-half of the expenses incurred for the benefit of all the household's occupants. Line 18 Health Insurance Premiums

Column A: Deduct premiums you paid for health insurance for yourself, your spouse, and your dependents if those premiums haven't already been deducted or excluded from your income.

If you claimed a deduction for health insurance premiums on your federal Form 1040 or 1040-SR, Schedule A, use the worksheet on page 46 to calculate the deduction allowed for health insurance premiums. The worksheet follows the priority that itemized deductions first apply to health insurance premiums, then to long-term care insurance.

Idaho Medical Savings Account

If you take money out of your Idaho medical savings account to pay medical insurance premiums, no deduction is allowed. Since the health insurance costs already are deducted or accounted for, they can't be deducted a second time.

Salary Reduction Plans

Premiums paid through a cafeteria plan or other salary-reduction arrangement can't be included in the Idaho deduction for health insurance costs. For example, if your health insurance payments are deducted from your paycheck pretax, they don't qualify for the deduction.

Business Deductions

Premiums deducted as a business expense can't be included in the Idaho deduction for health insurance costs, since these amounts are already deducted. This includes amounts of self-employed health insurance premiums deducted in arriving at federal adjusted gross income.

Social Security Medicare A and B

No deduction is allowed for the amount paid for employer-required Social Security Medicare A. This is the amount listed as a deduction on almost every federal Form W-2.

If you voluntarily enroll in Medicare B or Medicare D or aren't covered under Social Security and voluntarily enroll in Medicare A, you can deduct the premiums you paid.

Idaho Standard Deduction

If you use the Idaho standard deduction instead of itemizing your deductions for Idaho purposes, you don't have to reduce your health insurance costs by any amount claimed as a federal itemized deduction.

Federal Itemized Deduction Limitations

In the year the device is placed in service, you can deduct 40% of the cost to construct, reconstruct, remodel, install, or acquire the device, but not more than \$5,000.

In the next three years after installation, you can deduct 20% of these costs per year, but not more than \$5,000 in any year.

Qualifying devices include:

- A system using solar radiation, wind, or geothermal resource primarily to provide heating or cooling or produce electrical power or any combination thereof

- A fluid-to-air heat pump operating on a fluid reservoir heated by solar radiation or geothermal resource but not an air-to-air heat pump unless it uses geothermal resources as part of the system
- A natural gas or propane heating unit that replaces a noncertified wood stove
- An Environmental Protection Agency (EPA)-certified wood stove or pellet stove meeting current industry and state standards that replaces a noncertified wood stove

A noncertified wood stove is a wood stove that doesn't meet current EPA standards. You must take the noncertified wood stove to a site authorized by the Division of Environmental Quality (DEQ) within 30 days from the date of purchase of the qualifying device. The DEQ will give you a receipt to verify it received and destroyed the noncertified wood stove.

You must install the natural gas or propane heating unit or the EPA-certified wood stove or pellet stove the same tax year that you surrender the nonqualifying wood stove to the DEQ.

Lines 20a – 20d

Complete the lines that apply to the year you acquired the device. For example, if you acquired the device in 2019, complete line 20d. Enter the device type and total cost. Multiply the total cost by the appropriate percentage. Line 20e can't be more than \$5,000.

Line 22 Idaho Qualified Retirement Benefits Deduction

You may be able to deduct some of the qualifying retirement benefits and annuities you receive.

The Idaho Retirement Benefits Deduction has a two-part qualification. You must qualify for **both parts** to receive this deduction.

Part One – Age, Disability, and Marital/Filing Status

The recipients must be at least age 65 or be classified as disabled and be at least age 62.

The following individuals are classified as disabled:

- An individual recognized as disabled by the Social Security Administration, the Railroad Retirement Board, or the Office of Management and Budget
- A veteran of a U.S. war with a service-connected disability rating of 10% or more
- A veteran of a U.S. war with a nonservice-connected disability pension
- A person who has a physician-certified permanent disability with no expectation of improvement

If you're married, you can't claim this deduction if you file separately. If you're an unremarried widow or widower of a pensioner and receive qualifying survivor benefits, you may be eligible to claim the retirement benefit deduction if you meet the age/disability requirements.

Part Two – Qualified Retirement Benefits

The recipients must meet the requirements in Part One, **and** their qualified retirement benefits must be one of the following:

- **Civil Service Employees:** Retirement annuities paid by the United States of America Civil Service Retirement System (CSRS), the Foreign Service Retirement and Disability System (FSRDS), or the offset programs of these two systems. To qualify for the deduction, employees must have established eligibility before 1984. Retirement annuities paid to a retired federal employee under the Federal Employees Retirement System (FERS) don't qualify for the deduction. If you received a CSA-1099, you can tell if your benefits are paid under the CSRS or FERS by looking at the first digit of the account number shown on your CSA-1099. If the first digit is 7, the benefits are paid out of FERS and don't qualify.

If the first digit is 8, look at your Notice of Annuity Adjustment from the Office of Personnel Management. The notice shows how much of your benefits are paid from CSRS and how much are paid from FERS. Only the portion paid from CSRS qualifies for this deduction. If the first digit is 0, 1, 2, 3, or 4, the benefits are paid out of CSRS.

- **Idaho Firefighters:** Retirement benefits paid by the Public Employee Retirement System of Idaho (PERSI) relating to the Firemen's Retirement Fund.
If you received a 1099R and your account number includes the FRF (Firemen's Retirement Fund) designation, your benefits may qualify for the deduction. Benefits paid out of the PERSI Base Plan don't qualify for the deduction.
- **Police Officers of an Idaho City:** Retirement benefits paid from the Policemen's Retirement Fund that no longer admits new members and, on January 1, 2012, was administered by an Idaho city or PERSI. Also, benefits paid by PERSI relating to Idaho police officer employment not included in the federal Social

Security retirement system. For example, benefits paid out of the city police retirement funds for the cities of Coeur d'Alene, Lewiston, and Pocatello may qualify for the deduction. Similarly, benefits paid by PERSI relating to the old Idaho Falls Policemen's Retirement Fund may qualify for the deduction.

If you received a 1099R and your account number includes the IFP (Idaho Falls Police) designation, your benefits may qualify for the deduction. Benefits paid out of the PERSI Base Plan don't qualify for the deduction.

- **Service Members:** Retirement benefits paid by the United States to a retired member of the U.S. military.

Disability pension paid by the Federal Railroad Retirement Act may not be included on your Form RRB-1099 or RRB-1099-R, if you're under the minimum retirement age. Instead it may be included on Form 1040 or 1040-SR, line 1 as wages.

The maximum amounts that can be deducted for 2022 are:

Married filing jointly:

- Recipient age 65 or older \$60,210
- Recipient age 62 or older and disabled \$60,210

Single:

- Age 65 or older \$40,140
- Age 62 or older and disabled \$40,140

These amounts must be reduced by retirement benefits received by you and your spouse under the Federal Social Security Act and the Federal Railroad Retirement Act.

Include with your return Form 1099s for all qualified retirement benefits claimed.

Line 22a. Enter \$60,210 or \$40,140, whichever applies to your filing status. **Note:** Only one deduction is allowed even though you and your spouse receive more than one annuity.

Line 22b. Enter the amount of retirement benefits you and your spouse received under the Federal Railroad Retirement Act.

Include on this line:

- The net Social Security equivalent benefit portion from federal Form RRB-1099, Box 5
- The "total gross paid" amount from federal Form RRB-1099-R, Box 7, minus any repayment from Box 8, and

- Any railroad retirement disability benefit included as wages on federal Form 1040 or 1040-SR, line 1

Line 22c. Enter the amount of retirement benefits you and your spouse received under the Federal Social Security Act, Box 5 of your Form SSA-1099s. If you or your spouse received Canadian Social Security benefits that you included in your federal taxable income, include those amounts received.

Line 22e. Enter the amount of qualified retirement benefits included on Form 43, line 28, Column A.

Line 22g. Enter the amount of qualified retirement benefits included in Idaho gross income. This amount must have been included on Form 43, line 28, Column B.

Line 22h. Divide line 22g, Column B, by line 22e, Column A. Round the percentage to the nearest whole number. For example, 45.49% is entered as 45%; 45.50% is entered as 46%.

Line 23 Nonresident Military Pay

Column A: If you're a nonresident of Idaho, enter the amount of military pay included on Form 43, line 28, Column A.

Line 24 Bonus Depreciation

If you claimed the bonus depreciation for federal purposes for property acquired before 2008 or after 2009:

- Complete a separate federal Form 4562 or detailed computation for Idaho depreciation purposes as if the special depreciation allowance hadn't been claimed
- Compute the Idaho adjusted basis and any gains or losses from the sale or exchange of the property using the Idaho depreciation amounts
- If the federal depreciation (including gains and losses) is less than the Idaho depreciation (including gains and losses), include the difference on this line; otherwise, enter the difference on Part A, line 3

Include the federal Form 4562s or detailed computations used to compute the depreciation and gains and losses.

Don't enter any amounts for property acquired during 2008 and 2009.

Column A: If the federal depreciation (including gains and losses) is less than the depreciation (including gains and losses) calculated without the bonus depreciation, include the difference on this line.

If you're a shareholder in an S corporation or a partner in a partnership that has Idaho-source income, include your distributive share of bonus depreciation from Form ID K-1, Part IV, Column A, line 27.

Column B: If the federal depreciation (including gains and losses) is less than the Idaho depreciation (including Idaho gains and losses), include the difference on this line.

Enter on this line your apportioned share of bonus depreciation from Form ID K-1, Part IV, Column B, line 27. The amount must be included as part of Form 43, line 27, Idaho Adjusted Gross Income.

Line 25 First-time Home Buyer Savings Account Contributions and Interest

You can contribute up to \$15,000 (\$30,000 if married filing a joint return) to a first-time home buyer savings account and deduct the contribution. Deposits into a first-time home buyer savings account can't exceed \$100,000 for the lifetime of the account.

A first-time home buyer savings account is established in Idaho with a bank, savings and loan association, credit union, or trust company authorized to act as a fiduciary. The account is used to pay the eligible home costs of the account holder or to reimburse the account holder's eligible home costs in connection with a qualified home purchase.

Include interest earned on the account on line 25 but only if included on Form 43, line 8. Interest earned on the account is tax deferred if the funds are used for a qualified home purchase. Enter the name of the financial institution and your account number in the spaces provided. Add your contributions to the interest earned on the account, and enter the total on this line.

Check the box to attest that you're a first-time home buyer. A first-time home buyer means an individual who:

- Resides in Idaho
- Has filed an Idaho income tax return for the most recent tax year
- Doesn't own, either individually or jointly, a single-family or multi-family residence, and
- Has never owned or purchased, either individually or jointly, a single-family residence in any location

Line 26 Other Subtractions

Columns A and B: Identify any other subtraction you're eligible for, and claim the amount on this line.

Don't include foreign taxes as a subtraction, since they're claimed as part of the Idaho itemized deduction if allowed. See the instructions for **Itemized or Standard Deductions**. Don't include other subtractions from Form ID K-1, Part IV, line 28 on this line. Include those other subtractions on line 15.

On this line in the applicable column, include interest from Idaho Build America Bonds included on Form 43, line 28, Columns A and B. Don't include on this line any interest from non-Idaho Build America Bonds.

Part C — Credit for Income Tax Paid to Other States by Part-year Residents

When both Idaho and another state tax the same income while you're an Idaho resident, you may be eligible for a credit for tax paid to the other state.

Use this section to compute the credit. Include a complete copy of the other state's income tax return and Idaho Form 39NR with your income tax return. If your S corporation or partnership paid income tax to another state on your behalf, include a copy of Form ID K-1 or the schedule received from the S corporation or partnership that paid the tax. If credit applies to more than one state, use a separate Form 39NR for each state.

Examples of income that both Idaho and another state may tax include:

- Wages earned in another state that has an income tax, such as Oregon or Utah, while living in Idaho
- Income from a business or profession earned in another state that has an income tax, while a resident of Idaho

Line 1. Enter your Idaho adjusted income from Form 43, line 31, Column B, if you reported the double-taxed income on an individual income tax return in the other state. If the double-taxed income was reported to the other state and taxed as part of an S corporation or partnership composite or group return, enter your federal adjusted gross income from Form 43, line 28, Column A.

Line 2. Enter the total portion of federal adjusted gross income derived in the other state modified to reflect Idaho additions and subtractions. In

computing the income derived in the other state, reverse any adjustments to federal taxable income allowed by the other state that aren't applicable to Idaho.

Enter your adjusted gross income from the other state restated to a basis comparable to Idaho adjusted income. For example, if the other state taxes interest received from U.S. obligations, deduct this amount from the other state's adjusted gross income. Idaho doesn't tax this interest.

If your income derived in the other state includes income from an S corporation, partnership, trust, or estate, enter your share of the entity's taxable income correctly reported to the other state plus any other Idaho adjusted gross income from sources in the other state.

Line 3. Enter the amount of income that's taxed twice. Only income that's taxed by Idaho and also taxed by another state is double-taxed.

Line 4. Enter the tax shown on Form 43, line 42.

Line 5. Divide line 3 by line 1. Round to four digits to the right of the decimal point. For example, .66666 is rounded to .6667 and should be entered as 66.67%. The percentage can't exceed 100%.

Line 7. Enter the other state's tax due from its tax table or rate schedule less its income tax credits. If your income derived in the other state was reported on a composite or group return filed by an S corporation or partnership, enter your proportionate share of the tax paid by the S corporation or partnership minus your proportionate share of the income tax credits. Income tax credits are those credits that relate to income tax. An example of a credit that isn't an income tax credit is a special fuels or gasoline tax credit.

Line 8. Divide line 3 by line 2. Round to four digits to the right of the decimal point. For example, .66666 is rounded to .6667 and is entered as 66.67%. The percentage can't be more than 100%.

Line 10. Your allowable credit for income tax paid to other states is the smaller of lines 6 or 9. Enter this amount on Form 43, line 43.

Part D — Credit for Income Tax Paid to Other States by Idaho Residents on Active Military Duty

When both Idaho and another state tax the same income, you may be eligible for a credit for tax paid to the other state.

Use this section to compute the credit. You must include a complete copy of the other state's income tax return and Idaho Form 39NR with your income tax return. If your S corporation or partnership paid income tax to another state on your behalf, include a copy of Form ID K-1 or the schedule you received from the S corporation or partnership that paid the tax. If credit applies to more than one state, use a separate Form 39NR for each state.

Examples of income that both Idaho and another state may tax include:

- Wages earned in another state that has an income tax, such as Oregon or Utah, while living in Idaho
- Income from a business or profession earned in another state that has an income tax, while a resident of Idaho

Line 1. Enter the tax shown on Form 43, line 42.

Line 2. Enter the total portion of federal adjusted gross income derived in the other state, modified to reflect Idaho additions and subtractions. In computing the income derived in the other state, you must reverse any adjustments to federal taxable income allowed by the other state that aren't applicable to Idaho.

Enter your adjusted gross income from the other state restated to a basis comparable to Idaho adjusted income. For example, if the other state taxes interest received from U.S. obligations, deduct this amount from the other state's adjusted gross income. Idaho doesn't tax this interest.

If your income derived in the other state includes income from an S corporation, partnership, trust, or estate, enter your share of the entity's taxable income correctly reported to the other state plus any other Idaho adjusted gross income from sources in the other state.

Line 3. Enter your Idaho adjusted income from Form 43, line 31, Column B, if you reported the double-taxed income on an individual income tax return in the other state. However, if the double-taxed income was reported to the other state and taxed as part of an S corporation or partnership composite or group return, enter your federal adjusted gross income from Form 43, line 28, Column A.

Line 4. Divide line 2 by line 3. Round to four digits to the right of the decimal point. For example, .66666 is rounded to .6667 and should be entered as 66.67%. The percentage can't exceed 100%.

Line 6. Enter the other state's tax due from its tax table or rate schedule less its income tax credits. If your income derived in the other state was reported on a composite or group return filed by an S corporation or partnership, enter your proportionate share of the tax paid by the S corporation or partnership minus your proportionate share of the income tax credits. Income tax credits are those credits that relate to income tax. An example of a credit that isn't an income tax credit is a special fuels or gasoline tax credit.

Line 7. Your allowable credit for income tax paid to other states is the smaller of lines 5 or 6. Enter this amount on Form 43, line 43.

Part F — Maintaining a Home for a Family Member Age 65 or Older or a Family Member with a Developmental Disability

- Is age 65 or older
- You maintain a household for, and
- You provide more than one-half of the family member's support for the year

If the home was maintained for the family member less than a full year, the credit is allowed at the rate of \$8.33 for each month the home was maintained.
